Legal Counsel

Company:

Netsize (a Gemalto company) is the global leader for mobile operator micro-payment and messaging. We connect and contract directly to the carriers and help our customers to monetize mobile services or services linked to mobility, improve brand awareness, acquire new customers, manage customer relationships, and optimize business efficiency, globally.

The recent merger with Ericsson IPX, combining two of the best companies in the business, has led to the establishment of a leader with unrivalled geographical coverage, a strong capacity for innovation in payments and messaging, and the ability to offer customers mobile payment solutions in over 50 countries.

The Netsize payment network reaches more than 2 billion consumers. We connect more than 1000 companies to over 160 mobile network operators. Our messaging services cover delivery to all mobile phones in virtually every country in the world.

Netsize employs more than 250 telecom professionals and has offices in 21 countries serving over 1000 customers. We have the direct connections, contacts and integrations with mobile operators and our customers benefit from our experience and local knowledge. For more information visit www.netsize.com.
